ORDER GRANTING MOTION

On December 18, 2001, the State Corporation Commission ("Commission") entered Orders in the above-captioned cases directing the Staff, on or before March 1, 2002, to submit a written recommendation to the Commission on whether it should transition to an annual fuel factor adjustment for the cooperatives from the current fluctuating monthly fuel charge, and if so, how such a transition should occur.

On February 25, 2002, the Staff of the Commission ("Staff"), by counsel, filed a motion requesting that the Commission extend the date for submitting its recommendation to the Commission from March 1, 2002, to April 1, 2002. The Staff stated that it requires additional time to consult with the cooperatives and interested parties on this issue and to submit its recommendation. The Staff also stated that counsel for all the cooperatives and interested parties do not object to the extension.

NOW THE COMMISSION, having considered the Staff's motion, finds that the request is reasonable and should be granted.

Accordingly, IT IS ORDERED THAT the Staff shall submit its recommendation to the Commission regarding the cooperatives'

possible transition to an annual fuel factor on or before
April 1, 2002.
